EDUCATION

- **SPŠ Elektrotechnická, Komenského 44** — Košice, Slovakia
  Telecommunication Technology — *Sep 2010 - May 2014*

SKILLS SUMMARY

- **Languages**: C#, Python, English (CEFR B2)
- **Tools**: Visual Studio, VS Code, Unity, Blender, Linux, Git, SQLite

EXPERIENCE

- **Róbert Steiner - Servis mobilných zariadení** — Gelnica, Slovakia
  Founder & Technician — *Oct 2020 - present*
  - **Entrepreneurship & Programming**: After collecting enough experience I decided set up my own company focused primary on repair jobs of various mobile devices, primarily smartphones and tablets. The portfolio covers both hardware and software services. I also programmed my own store management software in C# with various advanced capabilities suited for my specific needs.

- **PôjdeTo** — Prešov, Slovakia
  Lead Repair Technician — *Jul 2016 - Feb 2020*
  - **Advanced Repairs and Team Leadership**: As the lead technician I was responsible for the quality and delivery of all repair jobs across multiple locations. Also, I led the team and trained incoming colleagues.

- **GlobalLogic Slovakia** — Košice, Slovakia
  Machine Learning Intern — *Aug 2019 - Dec 2019*
  - **Computer Vision Internship**: During the internship I was part of the Machine Intelligence Lab team where I participated in various aspects of ML training and production setting such as data annotation, data cleaning, training and deploying the models and testing them in production setting.

- **Slovak Telekom** — Košice, Slovakia
  Call Center Agent — *Jan 2015 - Nov 2015*
  - **Sales & Advisory**: As a member of the sales team I talked to and helped customers with various issues & requests.
